ETodo Notes Crack +

eToDo Notes is a comprehensive yet simple-to-use application designed to provide an efficient method to compose and store important notes, which can contain shopping products, personal or work-related information or daily thoughts. Write and handle your entries with ease using an intuitive menu. It's comes wrapped in a straightforward and practical interface with a note holder panel, three buttons, one for making new memos, the second includes basic settings and the third is the help function. The program can be set to stay on top of other apps and when started, is send directly to the system tray. Those properties can be easily changed from the properties menu. To create a new note,

simply click on the left icon and a small window is displayed, along with a few basic formatting elements, such as bold, italic, underline and paragraph alignment. Plus, you have the option to change the font type, style, color and size for the current memo, as well as the background and border color to best suit your tastes. Customize the overall look of the program with pictures and styles The panel can be set to a more simple form by pressing the green button, and you can copy and paste content from another document into the notation. If you wish to view the text at a larger scale, it's possible to do so, by zooming in and out. In addition, if a task's priority is important and you wish to remember it, you can set an alarm. To do so, you have to input the date and time, set a daily, monthly or yearly recurrence, as well as specify a sound (WAV, MP3, WMA, MIDI) and run a particular command or application. Plus, you can insert various images(e.g. JPG, GIF, BMP, PNG, ICO) with different sizes to customize your annotations. From the settings menu, you are able to modify the overall appearance of the editor, default sizes for memos and pictures, along with interface language, run at startup, keep over other windows, and minimize when closed. Bottom line All in all, eToDo Notes is a reliable and user-friendly utility that comes in handy for those who need to easily and efficiently create and store essential tasks that can be personalized with alarms and various notations. During our testing, the tool ran without any issues. About sierra is a personal software project that started in 2004. It is an international award-winning web-based company that
