Igor started his Solar Journey when he was still a teenager. Since he did not have a reasonable budget for a complete solar system at that time, he had a simple approach: "What I do, I do by hand and try to understand everything," he says. He soon started teaching himself the mysteries of the solar energy field and, like many others, he was fascinated by photovoltaics. Until today, Igor has taught himself everything about Photovoltaics and Solar Energy, starting from understanding the basics of solar power and improving his knowledge by reading and applying all the theory and practice he's learned.
