Top best word templates and powerpoint templates for - Templates by Category . Anthem MMORPG Anthem is an online multiplayer online role-playing game set in a post-apocalyptic, post-plague world. The world is divided into discrete neighborhoods, each of which has its own unique story and gameplay systems. Like all MMORPGs, players travel to an expansive environment where they meet people and interact with other players. They begin at low levels, advancing as the game progresses. Characters are known as Avatars, unique avatars that players customize and manage as they progress. The game features several modes of play, including a Social MMO, in which players engage in team-based PvP (player versus player) and team-based PvE (player versus environment). The player experience is also very open-ended, where the player can level up their character as they wish to customize the look of the character and engage in a variety of activities. There are four races available: Humans, Pygmy, Beast and Norn. The basic character classes for all races are Warrior, Mage, Templar and Cleric. In addition to the four races, Humanity have the additional classes: Thief, Ranger, Wizard, Tactician and Sentry. You can sign up for the game and play as either Human, Beast, or Norn. The only difference is that Human players are restricted to one character of one race, while Beast and Norn players can have up to three characters of any race. Anthem is available for download as a PC game, although there is a possibility to buy the "game disc" from the Official Website. Cardiotoxic effects of amiodarone and amiodarone-digoxin combination in the rat heart. Amiodarone (Am) has a similar spectrum of antiarrhythmic and cardiodepressive activities as digoxin (Dg), but Am has a more favorable pharmacokinetic profile and may be more suitable for long-term therapy. We studied Am and Am-Dg combination with respect to their relative cardiodepressiveness in the rat heart (RHM) and compared them to other selected cardiodepressant drugs. Analyses were performed in two hearts per treatment and
