though the film is a completely straight narration, the way each separate thread comes and merges to the climax is an interesting way of dealing with a screenplay. and yes there are few scenes that evoke good laughter. the shift from rural atmosphere to the urban, and the clever leads to the climax are the highpoints of yamudu. final point: as mentioned earlier surya is a wonderful actor. his intensity is spoken by the likes of ramgopal varma, his dances are matched by best of the lot, his smile makes girls drool, and his dialogue delivery is powerful. all he needs a film to do that! yamudu, dubbed version of tamil super hit singam is one such film. continue

Yamudu Telugu Full Movie 1080p

what is good: the movie is a well made thriller and has all the ingredients to become a hit. all the actors perform well, and the scenes are well written. its a movie that shows you a lot of violence and makes you wonder if the film is just made with some thrill in mind. all the fights are well choreographed, and they have to be applauded for their efforts. though the movie could have been a lot longer, the finale in which all the die hard fans are happy, brings down the tone and makes us forget about the time that passed. what is bad: though many readers would be pleased to know that there are some good dialogues in the film, some of them just don't sit well with us. we do not mean that the diction is poor, but the dialogues do not fit the character's personality well enough. this is the case with the first half of the movie, and also in the second half, when the movie

shifts from rural to urban. the only change in character from one character to another is surya himself. what is good: the movie is a well made thriller and has all the ingredients to become a hit. all the actors perform well, and the scenes are well written. its a movie that shows you a lot of violence and makes you wonder if the film is just made with some thrill in mind. all the fights are well choreographed, and they have to be applauded for their efforts. yamudu has a brilliant premise. the story of a powerful but altruistic person who also happens to be an undercover cop gets woven into the typical love story of the superhero. it's a combination that makes for a good watch. the teaser doesn't provide any clue about how the plot will unfold, but i was pleasantly surprised with the result. the concept of a cop playing a superhero on screen is new. but then, we've seen it done before.
